

DO HUU TUAN

Department of Industrial Informatics and Automation
School of Electrical and Electronic Engineering
Hanoi University of Science and Technology

Tel	+84 369 776 248
E-mail Address	Tuan.DH232600@sis.hust.edu.vn
Address	No.01, Le Thanh Nghi road Hai Ba Trung District, Hanoi, Vietnam
Education	Hanoi University of Science and Technology, Vietnam. Bachelor of Science, Industrial Informatics and Automation (2023 – Present)
	University of Transport and Communications, Vietnam. Computer Science (2022 – 2023)
Research Interests	Embedded systems, robotics, and human-robot interaction Machine Learning
Research Experience / Laboratory	MEG Lab (Mechatronics Engineering Group). 3-Axis Magnetic Field Measurement System: Built a prototype using ESP32 and KY-024 sensors to measure magnetic-field strength, practicing signal processing and embedded programming.
	Sushi Restaurant Website: Developed a full-stack introduction website (halsosushibollebygd.com) using HTML, CSS, PHP, and MySQL on XAMPP.
English Skill	Good communication in technical settings.
Other Skills	Programming: C, C++, Python.
	AI/Data: Neural Networks, Machine Learning.
	Embedded Systems: ESP32.
	Core knowledge: Sensors, signal processing, web communication.
